

CONFERENCE LOCATION - MAIN SPONSORS

CONFERENCE LOCATION

The City of Luxembourg is located in the heart of Europe and was founded in 963, since then it has developed from a historical fortress town into a stunning European capital. Attractions include the rich history of the city and the extraordinarily beautiful surrounding landscape. The conference will be held in the conference centre "Neumünster" - a historical building located along the Alzette River and at the foot of the cliff that enthrones Luxembourg's old city. The location combines a range of outstanding modern facilities with a beautiful historical environment.

CALL FOR PAPERS

AIM 2006

11TH INTERNATIONAL CONFERENCE OF THE
ASSOCIATION INFORMATION AND MANAGEMENT (AIM)

"INFORMATION SYSTEMS AND COLLABORATION:
STATE OF THE ART AND PERSPECTIVES"

7-9 JUNE 2006

LUXEMBOURG

WWW.LIPPMANN.LU/AIM2006

In cooperation with
FG EMISA

SCOPE

AIM 2006 is the premiere international conference in the field of Information Systems and Management for French speaking researchers. This years conference explores the area of information systems and collaboration. In order to widen participation, AIM 2006 welcomes submissions from the non-French speaking research community.

The use of "e-Business" technologies is increasing substantially. This is partly due to the growth in co-operation between organizations in the private sector. One outcome of this evolution has been the increasing adoption of customer-focussed processes. This has an effect on the internal processes of the participating organizations; for example, they may become increasing centralised or de-centralised. Such changes will influence the technical, economic and human aspects of the organisation.

The field of "e-Government" also raises some critical issues, in particular how public sector organisations need to constantly evolve their management systems in order to maintain the quality and speed at which services are provided to citizens and business. The requirement to adapt and improve the structures has led to the widespread adoption of Information Systems, with such systems being a critical aspect of many strategies. In addition, a key aspect of the development of such systems is the use of Internet technologies, which provide a backbone in both "e-Business" and "e-Government" applications.

Drawing on the twin themes of "e-Government" and "e-Business", the conference will explore the important research questions in the field of e-Collaboration. By exploring established practices as well as the state of the art the conference will provide the ideal platform to develop further knowledge in the economic, technical and human aspects of IT Systems and Management.

TOPICS

The conference covers a range of topics including those listed below, however submissions are welcome from those who wish to cover other areas relevant to e-Collaboration.

1. TECHNICAL ASPECTS OF E-COLLABORATION

- ▶ Data and process modelling
- ▶ Structuring and formalization of data exchange
- ▶ Semantic web and ontologies
- ▶ System architectures
- ▶ Software engineering
- ▶ Virtual collaboration platforms
- ▶ Security
- ▶ Open Source technologies

2. ECONOMIC ASPECTS OF E-COLLABORATION

- ▶ Enterprise management
- ▶ Strategy and competitive positioning
- ▶ Innovation, research and development
- ▶ Marketing, sales and access to the market
- ▶ Production and manufacturing
- ▶ Sector-specific issues
- ▶ Measures, metrics and evaluation
- ▶ Economic efficiency
- ▶ Delocalization
- ▶ Adoption

3. HUMAN ASPECTS OF E-COLLABORATION

- ▶ User acceptance of new modes of collaboration
- ▶ e-Collaboration sociology
- ▶ Trust in e-Collaboration
- ▶ e-Collaboration and human resource management
- ▶ e-Collaboration and learning
- ▶ Cognitive aspects
- ▶ Human-Computer interfaces
- ▶ Ergonomics and ease of use

CONTRIBUTIONS - DEADLINES - ORGANIZATION

CONTRIBUTIONS

Contributions are limited to 5.000 words in length (formatting guidelines of LNI) and should preferably be uploaded in electronic format on the www.lippmann.lu/aim2006 website. Alternatively, contributions may be sent by email to aim2006@lippmann.lu. They may be written in English or French. The cover sheet must include the title, the author's name, an abstract and the author's full contact details. The conference proceedings will be published on CD-ROM. The contributions may be presented in English or French. Simultaneous translation in English for the French presentations is planned in order to encourage international participation.

Best English-language papers will be published additionally in the GI LNI series "Lecture Notes in Informatics".

The AIM 2006 doctoral tutorials are intended to bring together PhD students working in the field of Information Systems and Management and give them the opportunity to present their research.

DEADLINES

March 3 rd 2006	Submission deadline
April 7 th 2006	Notification of acceptance
April 21 st 2006	Final version due
June 7 th 2006	Doctoral tutorials
June 8 th and 9 th 2006	Conference

For any question, please contact :
