2 March 2020

Preface

This proceedings brings together works presented at the *Digital Humanities and Natural Language Processing Workshop* that took place in Évora on the 2nd of March 2020, along with the *International Conference on the Computational Processing of Portuguese, PROPOR 2020*. Our workshop had an enthusiastic audience, with a good variety of themes discussed along the day. The papers covered areas such as literature, linguistics, history, law, twitter analysis in relation to elections, and detection of fake news. All these topics have been studied with the help of natural language processing models and tools. Each paper was reviewed by three collaborators from our international programme committee, composed by reviewers from nine different countries. The proceedings is organised in three sections, Full Papers (describing complete studies), Short Papers (discussing ongoing research) and Extended Abstracts (presenting initial projects).

April 2020

R. Vieira, M. J. Finatto, S. Pollak, S. Luz

Organizing Committee

Maria José Finatto (UFRGS, Brasil)
Renata Vieira (PUCRS/Evora University, Brasil/Portugal, contact person
renata.vieira@gmail.com)
Saturnino Luz (Edinburgh University, UK)
Senja Pollak (Jožef Stefan Institute, Slovenia)

Programme Committee

Aline Vanin (UFSCPA, Brasil)
Alvário Iriarte (Minho University, Portugal)
Ana Zwitter Vitez (University of Primorska, Slovenia)
Andreas Spitz (EPFL, Switzerland)
Antoine Doucet (Université de la Rochelle, France)
António Branco (Universidade de Lisboa, Portugal)
Cassia Trojahn (IRIT, France)
Claudia Freitas (PUC-RJ, Brasil)
Denise Nauderer Hogetop (APERS, Brasil)
Diana Santos (Linguatca & Oslo University, Norway)
Fernanda Olival (Evora University, Portugal)
Idalete Dias (Minho University, Portugal)
Katja Mihurko Poniž (University of Nova Gorica, Slovenia)
Ligeia Lugli (SOAS University of London, UK)
Maria Filomena Gonçalves (Evora University, Portugal)
Matthew Purver (Queen Mary University of London, UK)
Michael Mathioudakis (University of Helsinki, Finland)
Paulo Quaresma (Evora University, Portugal)
Sandro Rigo (Unisinos, Brasil)
Shane Sheehan (Edinburgh University, UK)
